

About ISCC PLUS Certified Projects

ISCC (International Sustainability and Carbon Certification), which is the sustainability certification programs for biomass and recycled materials, gaining popularity in Europe has recently been in the spotlight in Japan as well.

Currently, we are proceeding with the ISCC PLUS certification as per the following declaration.

"Kadotoku Corporation promises and declares that it will comply with the ISCC PLUS requirements in accordance with the latest ISCC regulations."

After obtaining the certification, we will fully utilize the value of ISCC certification and contribute to the realization of a sustainable society.
